

SPEED UP & STREAMLINE CALCULATIONS!

USE ADDIMAX

the *ONE* and *ONLY* pocket adding machine with a *CREDIT BALANCE*!

The background features technical drawings and calculations. On the left, a diagram titled "SECTION THRU DROP PANEL" shows a cross-section of a panel with dimensions like 6.5' and 7.5'. To the right, a table titled "POSITION OF THE C.O.F.A." shows calculations for A, Y, and A-Y. Below this, a calculation for $y_a = \frac{12400}{2620} = 4.74$ is shown. Further down, a calculation for $I = \frac{156}{3} \left| \frac{4.74}{3} \right|$ is shown. At the bottom right, a calculation for $12.85 - 20.00 = -7.15$ is shown, with the text "credit balance shown here" above it. The ADDIMAX machine is held in the center, showing "SUB-ZERO" on its display and "SUB ZERO BALANCE" on its bottom. The machine has two rows of answer windows. The background also includes a slide rule and various other calculations.
